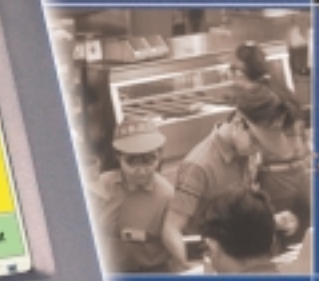
Panasonic

7900 Workstation

Panasonic reliability – now in small packages...



The Panasonic 7900 Workstation proves that good things really do come in small packages. Purpose-built design with the proven reliability you've come to expect from Panasonic, the 7900 is the next big thing in point of sale systems (POS).

Compact

- Save valuable counter space with the compact design of the 7900. Even the tightest front counter can accommodate the sleek shape of the Panasonic 7900.
- The "all-in-one" design of the 7900 eliminates the clutter of additional hardware giving you a clean look that also saves space.
- Make the most of your front counter real estate by taking advantage of the 7900's rear-facing point of purchase display. Promoting special menu items is now easier than ever!

Innovative

- The adjustable, dual back light LCD display provides high resolution, high contrast images for faster, more accurate order taking.
- No moving parts gives the 7900 much higher reliability than other workstations or PCs that have hard disk drives (HDD) and fans.
- Internal uninterrupted power supply (UPS) ensures smooth system shutdown and recovery in the event of a sudden power loss.
- Modular design features field replaceable compact flash card, and an easily accessible UPS battery for fast, easy maintenance if needed.

Durable

- Keep your restaurant looking clean and new with the Panasonic 7900. The durable plastic casing resists dust, dirt and grease build-up, giving your front counter a friendly and clean face.
- Accidents happen but they won't stop the Panasonic 7900. With a spill resistant design, the 7900 can withstand even the wettest mistakes.
- Free of moving parts, the 7900 Workstation is XP embedded with no hard drive, making it an outstanding choice for supreme reliability and durability.

Versatile

- Optional standalone workstation software with polling capability offers a low cost method to send restaurant data to external recipients without sacrificing the ability to run valuable key management reports including Time & Attendance and Cash Control.
- For a more robust reporting solution, Panasonic's proven back-office solution – System Manager Pro (SMP) – offers complete reporting including inventory control.
- Configure your 7900 Workstation with Panasonic's Corporate System Manager Pro (CSMP) as part of your overall enterprise-wide system solution – you can even communicate with stores using different Panasonic workstation models.
- A flexible restaurant solution, the 7900 can run third party software.
- Increase your speed of service by combining your 7900 solution with a handheld order taker for line busting and remote order taking applications.
- From quick service to table service, the 7900 can adapt to almost any restaurant operation.

Supportable

- A field replaceable Compact Flash (CF) card allows you to easily maintain your workstation and save money on costly service visits.
- Save the time and headache of a lengthy workstation set up. With the help of your back-office PC, configuring the 7900 is as easy as inserting a blank CF card and answering a few simple questions.
- Rest easy, your valuable store data is dually maintained in your 7900 and back-office PC, allowing easy data restoration when necessary.

Occupies less than 2 cubic feet of space
