

About Us

Business Machines Company, Inc. was founded in 1958 by two former NCR employees. Now, over 60 years later, we've grown to a nationwide installed base approaching 5,000 locations. We've helped our customers navigate through changes by migrating from mechanical and electronic cash registers to modern, Windows and Android based POS solutions with today's latest features, including Software as a Service (SaaS), Contactless Payments, eCommerce, Online Ordering, Loyalty, Self Service Kiosks and Mobility. BMC is an authorized reseller of NCR, PAR, and TGCS. Our team of professionals is certified on all hardware and software platforms represented. Our leadership team participates in various advisory councils, boards, and committees to ensure you are the forefront of emerging technologies.

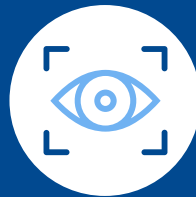

SaaS - Sales - Service - Supplies
