

Retail POS Solutions to Give Your Business Flexibility

BMC's retail store POS software offers inventory tracking flexibility, gift basket creation, and compliant specials. Monitor performance, ensure compliance, and incentivize sales with integrated loyalty features. Enjoy back-office efficiency and nationwide support, including onsite and remote services through vendor partnerships.

Elevate Your Retail POS System

Checkout & Payment

Deliver swift, secure checkout experiences and seamlessly integrate barcode technology for accuracy and automated inventory updates. Set retail and wholesale price levels and drive sales with bundled offers. Efficiently execute closeout sales for seasonal items in specific departments with flyer codes.

Inventory Management

Our solutions efficiently manage diverse specialty retail inventory with barcode technology, updating databases automatically. Allow ESLs to simplify merchandising and pricing updates for your staff. Special order features cater to customers seeking unique items, enhancing your business operations.

Loyalty & Engagement

You can seamlessly reward customers across in-store and online channels. Families can share accounts, track rewards digitally, and receive personalized promos. eCommerce integration offers online presence and product reservations for in-store pickup, while subscription options boost business growth.

Security & Loss Prevention

Implement our loss prevention and security solution to automate store policies, eliminating manual reviews. Monitor sales, voids, and employee activities at the point of sale to prevent shrinkage—our global return solution safeguards against fraud across multiple locations.
